

Volunteers Needed for a Cold Study

examining the effects of a cocoa based supplement
on finger temperatures

If you are...

- Healthy with no history of cold injuries
- Between the ages of 18-49
- Willing to discontinue the use of medication (Tylenol, Sudafed, Advil, etc.) during the study
- Willing to ingest a cocoa based supplement

Are willing to...

- ✓ Submerge finger in cold water (39°F) for 30 mins
- ✓ Provide blood and fecal samples
- ✓ Ingest 4 supplement pills or 4 placebos daily for 8 consecutive days

Time commitment:

- ❖ ~25-32 days (~4 weeks)

You may be eligible!

You may be eligible for compensation (up to \$400)
